COMMERCIAL INTELLIGENCE

THURSDAY EVENING, JULY 19.

WITH the exception of an advance of ¼ in three per cent. Consols, which now stand at 99⅞, there is no change in the leading Stock Exchange Securities.

MONEY, however, in Lombard-street, according to Reuter, is dearer; he quotes equal to the Bank rate for three and four months Indian Bills, but as this is ½ per cent. more than the figure of the previous day, we are inclined to think an error has crept in, seeing we are without advice of any reduction in the Bank of England's rate.

In the General Produce Market, Coffee is dull, and Mid-Plantation Ceylon has fallen to 79s., a drop of 1s. Linseed, on the other hand, is firm. Calcutta to arrive via Canal has advanced 3d. per quarter, and Bombay 6d.: the latter on the spot is 1s. higher, say 42s. Rapeseed and Wheat show no change.

The Manchester Piece-goods Market is quiet without any alteration in the prices of Goods or Yarns.

The Liverpool Cotton market yesterday closed quiet. Surats dull. Arrivals quiet. Sales 8,000 bales, of which 700 bales Surats. "Good Fair" Dhollera and "Good" Broach on the spot have given way 1-16d. Middling Uplands in New York are unaltered, but "futures" for the month of October are two points higher, the latest quotation being 9·78 cents. The figures to date are given below:—

	1883.	1882.	1881.
Total receipts up to Tuesday	5,903,000	4,613,900	5,880,300
Wednesday's receipts	2,000	600	2,500
Total since 1st Sept.	5,905,000	4,619,500	5,682,800

EXCHANGE.—Advices from London name 50 5-16d. as the current quotation for Bar Silver, or 1-16d. less than yesterday. As a means of remittance to the East, Government telegraphic transfers were largely availed of yesterday. Ten lakhs were allotted to Bombay, and 24 3-10 lakhs to Calcutta at 1s. 7⅞d., which appears to be only half the amount applied for. As the position of Government is now very strong, they are in a position to curtail sales, and this may mean holding for an advance later on. Only twenty thousand rupees of ordinary demand was taken up on Calcutta, for which 1s. 7⅞d. was obtained. The next biddings will be for twenty-five lakhs. The market here opened steady, and towards the close a hardening tendency became apparent. There are no buyers of three months' Credits under 1s. 7 11-16d., holders are unwilling to let their bills go at this figure. There are sellers of Demand Bank Paper for August, September, October delivery at 1s. 7 7-16d., which is 1s. 32d. better than the current ready rate. There appears to be a good business going on in Calcutta, but China is not supporting us to any very great extent:—

Bank Bills on Demand	1s. 7 13-32d.
Do. Telegraphic Transfer	1s. 7 11-32d.
Do. three months' sight	1s. 7 19-32d.
Credits, do. do.	1s. 7 11-16d.
Francs, do. do.	2·97½

GOVERNMENT PAPER is quiet but steady. Some business in 4 per cents is reported to have taken place at Rs. 98¾; 4½ per cents, Rs. 104.

SHARES.—Some Port Cannings have changed hands at Rs. 360 per share. There is little doing in Press Securities. Mill stock is quiet but steady. Transactions are reported in Alliances at Rs. 945; Dhurrumseys at Rs. 602½; Empress at Rs. 852½; Gordons at Rs. 800; Khandeish at Rs. 950; Khotaos at Rs. 1,095; Morarjees at Rs. 1,495; New Great Easterns at Rs. 1,095; and People of Indias at Rs. 292½. Bombay and Burmah Tradings have recovered to Rs. 3,710.

COTTON.—There is a somewhat better enquiry in the market to-day, and a parcel of "good" Julgaum is reported to have been placed at Rs. 156 per candy. A small lot of "good" Bhownuggur has found a buyer at Rs. 157½. Some "fully good fair" Oomrawuttee changed hands on the basis of Rs. 147½. There is, however, no material change in prices. We quote:—

LINSEED.—Consequent on the continued firm tone of the home market, coupled with the prolonged interruption on the railways, the price has risen to Rs. 5-12 per cwt., and there is a fair amount of business doing here.

RAPESEED also continues firm, and several purchases of Guzerat are reported at Rs. 7-5 to Rs. 7-6 [illegible] Cawnpore at Rs. 6-13 to Rs. 6-14.

PIECE-GOODS.—Business in the bazaar is almost at a stand-still, and dealers seem indisposed to buy either on spot or to arrive.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how

SURGEON DAVIDSON, from Kaira, has been appointed to act as Health Officer in Bombay while Dr. Weir acts as Municipal Commissioner.

AT the High Court yesterday afternoon, Mr. Russell mentioned to Mr. Justice Latham that the rule *nisi* which his lordship granted last week on the application of Mr. Wilkin, of Messrs. Skipsey and Wilkin, solicitors, was not to be proceeded with; and that the parties now asked for an order to withdraw the rule, which called upon Mr. Skipsey to show cause why the partnership should not be dissolved, and why he should not be restrained from interfering with the partnership books, papers, and moneys. Since the issue of the rule, a dissolution of partnership has been privately agreed upon; and the rule is to be dropped. His lordship said he would look through the papers before signing the order for the withdrawal of the rule.

LIEUTENANT F. R. H. CHAPMAN, 25th N. L. I. is transferred to the Political Department and appointed to act as Assistant Political Agent in Cutch during the absence of Captain Wray.

IT is believed, an up-country paper says, that Mr. C. Grant, C.S.I., Foreign Secretary with the Government of India, will proceed on furlough in November next.

DR. KOLAH, Deputy Sanitary Commissioner, Eastern Gujerat Registration District, has been granted three months' leave, and Surgeon Mac-Cartie is appointed to act for him.

THE flood at Baroda to which we referred last week did not last long, as we see from the official district reports that communication between camp and city and railway station was stopped only for a few hours. There was, however, some damage done to property. At Jacobabad on the 15th inst. a "terrific storm" occurred which damaged and uprooted trees.

A LIST of "the three classes of Sardars, and widows of Sardars, and Honorary Sardars," is published in yesterday's *Bombay Government Gazette*.

COLONEL SLADEN, Commissioner of Arakan, proceeds on three months' privilege leave, and Colonel Strover, Deputy Commissioner, Tonghoo, officiates for him, Captain Jenkins, from Bassein, officiating for Colonel Strover.

HIS HONOUR THE LIEUTENANT-GOVERNOR OF BENGAL, Mr. Rivers Thompson, intends to proceed on tour in the beginning of August. He will visit some of the river-side stations, such as Uttarpara, Serampore, Hooghly, Santipore, &c., and then go to Bhaugulpore, Monghyr and Maldah. His Honour will next proceed to Naraingunge to settle some points connected with the Dacca-Mymensing Railway. From Naraingunge he will go to Commilla for a conference with the local officers about the Chittagong Railway. After this brief tour His Honour will go back to Darjeeling, and will not return to Calcutta till November.

THE Lahore Hindu Sabha has passed a special resolution expressing "sincere and deep regret at the news of the departure from India of Major Baring, our present distinguished Finance Minister and a strong supporter of Lord Ripon's Government," and recording its "deep sense of gratitude and esteem for the many invaluable and eminent services rendered by him to this country since his arrival in it." Major Baring replied to a letter from the Secretary of the Sabha, enclosing the resolution, as follows:—"I beg you will convey to Raja Hurbans Singh and the members of the Lahore Hindu Sabha my sincere acknowledgments for the resolution which they have been so good as to pass on the occasion of my departure from India. It is, indeed, a matter for regret to me to leave a country in whose welfare I take so deep an interest. That interest will certainly not cease when I am no longer officially connected with the Government."

MR. E. C. BUCK, Secretary to Government in the Revenue and Agricultural Department, is now at Singapore arranging with the Straits Government the proposed modification of the Madras Emigration Act. On leaving Singapore, Mr. Buck goes to Rangoon to confer with the Chief Commissioner on certain questions of land revenue.

THE Local Boards Bill of Bengal still hangs fire. The *Hindu Patriot* says on this subject:—"We have already stated that the Secretary of State has disallowed Mr. Thompson's scheme of the Central Board of Control, but, strange to say, no despatch has yet come from the India Office on the subject. Both the Government of India and the Government of Bengal are tied hand and foot. They do not know which way to move. If the Secretary of State should order that the Central Board must be replaced by the District Board, and that the District Magistrate must be the chairman of that Board, then the whole scheme must be recast. Need we say that it will not be the same progressive measure that had been promised to us. So much for local self-government!"

IN an article dealing with the subject of cholera in Calcutta and its connection with the sewerage of the city, the *Englishman* says:—"Our experience of Calcutta dates from the cold weather of 1857, and, as far as our memory serves us, cholera cases in the cold weather were at that time, and for some years after, regarded as exceptional occurrences. In those days, to the best of our belief, there was but one recognised cholera season, from March to May, instead of two, as at present, viz., one in November and December, and one in the hot weather. This impression, based as it is upon 'simple inspection,' and not on statistics, may be an erroneous one. But we should like to see the cholera figures for each month of the year, from a period of, say, ten years previous to the construction of the present sewerage system, up to date."

THE *Indian Daily News* says:—"The story at Simla is that, first, the majority of the India Council is strongly opposed to the Bill, and that this majority includes nearly all the Council. Then, there is a report which, by the way, at the end of last week, had reached the bazaar in Calcutta, that in the Legislative Council of India eleven members are opposed to the Bill, and that even in the Executive Council the Viceroy is outvoted on this subject." In connection with these reports the rumour of the resignation to which we yesterday gave an authoritative contradiction, is referred to. The *News* gives these "stories from Simla" for what they are worth, which is not much.

THE *Madras Mail* has a poor opinion of our turreships:—"The turret vessels at Bombay, the Abyssinia and Magdala, were," it says, "apparently intended to form the nucleus of a force for the defence of our shores; but since obtaining them nothing has been done in the matter; nothing has even been done to form a force, volunteer or otherwise, to man and fight these two harbour defence vessels; and we are informed that even they are in a discreditable condition, as their boilers are worn out and unable to generate enough steam to propel the ships for any distance or time."

A NATIVE punkah-puller has just been sentenced by Colonel Parsons, Deputy Commissioner of Jhelum, to three years' rigorous imprisonment, including three months' solitary confinement, "for entering a young lady's bedroom in the house where he was employed, at night." A telegram from the Calcutta correspondent of the *Pioneer*, dated July 17, states:—"The *Englishman* publishes a paragraph to-day, announcing another serious attempt at crime committed in the house of a lady residing in the house of a gentleman here who occupies one of the highest official positions. I have good reason for stating that this announcement is well founded. The man who attempted the assault made good his escape. This occurrence took place early last Friday morning in a room on the groundfloor of a house in the European quarter of the town."

THE relations existing between ship captains and their crews form the theme of an article in the *Indian Daily News*. Our contemporary's remarks are by no means complimentary to the local magistracy. The case of the Scottish Chieftain, a reference to which has already been made in these columns, was, it says, the culminating one in a series of cases in which shipmasters have obtained little or no redress from the police courts. The fact of "the Allahabad lying at Diamond Harbour for eight days, and incurring a loss which at ordinary rates of demurrage may be estimated at Rs. 2,000, because she has been deserted by her crew," is cited as a proof of the inefficacy of the law to compel sailors to abide by the terms of their articles. It is not a new law that is wanted, the *News* says, but the proper enforcement of the existing law; and advantage should be taken of the Lieutenant-Governor's presence in Calcutta to have the matter settled as speedily as possible.

THE great American Star Route trial which has been dragging its slow length along for several years, has at last come to an end by the acquittal of the prisoners, all of whom were prominent members of the Republican party. The charges against them were that by fraudulent contracts, forgery, and perjury they had robbed the Government of something like two million dollars. The verdict, it is stated, has taken everybody by surprise, and the democratic papers speak of it as a public calamity. The *New York World*, which is strongly biassed in favour of Democracy, sarcastically remarks that the Republican platform for the forthcoming Presidential election will be "more Star Routes and moon-struck juries."

A TELEGRAM from New York to the *Daily News* states that Tynan, better known as "Number One," does not expect arrest for extradition, and that he is going to Houston, in Texas, to live.

SOME interesting extracts from the memoirs of General Mouravieff, known in Russia as "the hangman of Lithuania," have been published in the *Ruskaya Starina*. Mouravieff does not attempt in any way to conceal the cruelties which were perpetrated under his rule in Lithuania during the insurrection of 1863-64; on the contrary, he glories in them, and, like Mr. Bright, treats all who do not agree with him as imbeciles. Even the Emperor Alexander II. himself he describes as being "under philanthropic delusions." "I knew," he says, "what I wanted; my mission was to make the country Russian, both in political feeling and in religion; and if it had been necessary for this to exterminate the Roman Catholics, their churches and houses, I should have done it." The attempts at conciliation made by Prince Suvoroff, the Governor-General of St. Petersburg, General Milutin, the Minister for War, and M. Valouyeff, the Minister of the Interior, were in his eyes nothing but "humanitarian folly." Immediately after his arrival at Vilna, on the 14th of May, 1863, Mouravieff issued an edict imposing severe penalties on all householders from whose premises men had gone to join the insurrection, and ordering all the sentences upon persons found guilty of having taken part in the insurrection to be at once carried out. The result of this edict was that ten priests were shot and two noblemen hanged; and Bishop Krasinski, who became ill on hearing the news, was banished by Mouravieff to Siberia. A special income tax of 10 per cent. was imposed on every Pole in Lithuania, each of whom also had to pay his share of the annual cost of the territorial guard, amounting to 800,000 roubles. According to Mouravieff's own report, the number of Poles punished for political offences during the two years of his rule was 9,361. Of these, 128 were hanged or shot, 972 sent to hard labour in the mines, 1,472 banished to Siberia, and 5,625 to other parts of the empire, and 864 sent to serve in the criminal companies of the army.

THE Inniskilling Dragoons, now at the Cape, are on the roster to come out to India to relieve the 10th Hussars next autumn. As the latter regiment moves this winter to Mhow, the Inniskillings will in all probability relieve the 10th at that station, which unfortunately, as up-country paper remarks, has anything but pleasant associations for the gallant 6th Dragoons. It was just before this regiment went home from its last tour of Indian service that, when stationed at Mhow, the memorable court-martial on Paymaster Smales was held. It may still be in the recollection of some of our readers how the whole regiment was divided against itself over this *cause célèbre*. The issue of the trial was that Captain Smales, in spite of the sympathy of nearly the whole of the regiment, was cashiered; but subsequently, on an appeal to Parliament, was restored to his rank, but placed on retired pay. The rancour exhibited between the Colonel and his senior officers over this case resulted in Colonel Crawley's removal from the command, and the transfer from the regiment of the senior Major to the 15th Hussars, of which regiment, however, he soon after obtained command, when it was at Meerut. As an offshoot of this trial an attempt was made to implicate Colonel Crawley for the death of the Sergeant-Major of the Inniskillings. The Colonel, it was alleged, had subjected the non-commissioned officer to undue severity while in confinement in the guard-room in the hot months. Under special orders from home, Colonel Crawley was tried by court-martial on this charge, but was acquitted.

THE Government of India have ruled that he widow of an officer who dies from wounds not received while in the actual performance of military duty, has no claim to the special rates of pension or compassionate allowances for herself or children, and that nothing more than the ordinary rates of pension can be allowed.

NOWROZJEE FURDOONJEE,
DAMODERDAS TAPIDAS,
SHANTARAM NARAYEN,
VIJBHOOJANDAS ATMARAM,
Honorary Secretaries.

Bombay, 19th July, 1883.

AT the request of some Hindu gentlemen, the Arya Sangitolejak Mandalee will give a performance of the "Sangit Uttar Ramcharitra" to-morrow evening, the 21st instant, at the Theatre Royal, Grant-road, in aid of the sufferers from the recent Surat floods.

Holloway's Pills.—Easy Digestion.—These admirable Pills cannot be too highly appreciated for the wholesome power they exert over all disorders of the stomach, liver, bowels, and kidneys. They instantly relieve and steadily work out a thorough cure, and in its course dispel headache, biliousness, flatulence, and depression of spirits. It is wonderful to watch the daily improvement of the complexion as Holloway's Pills purify the blood and restore plumpness to the face which had lost both flesh and colour. These Pills combine every excellence desirable in a domestic remedy. The most certain and beneficial results flow from the occasional use of this regulating medicine, even when being taken in the manner most consistent with the interests of the Public Service. The point has been made clear in the Civil Leave Code by the insertion of the note under section 4 of the code, published in the Financial Department Notification No. 1333, dated 7th June, 1883.

In paragraph 6 of the Resolution of September, 1882, it was stated that a recommendation would be made to the Secretary of State that the leave rules of a Civil Servant's residence in India entitling him to his first furlough should be reduced from eight to five years. It has now been decided that no change shall be made in the furlough rules on this point.

The Secretary of State has approved of the principle of imposing a check on the abuse of the leave rules by recurring grants of furlough on medical certificate to which attention was drawn in paragraph 7 of the Resolution of the 7th September last. The best mode of effecting this is still under consideration.

Lastly, the Secretary of State agrees to the proposal made by the Government of India that (except in very special cases) extensions of leave should not be granted in England, unless the applicants produce evidence that the Governments under which they are employed have no objection to such extension. This point has been provided for by the revised rule I. under Section 77 of the Civil Leave Code, published in Financial Department Notification No. 1333, dated 7th June, 1883.

THE KOHAT PASS AFRIDIS.

THE *Civil and Military Gazette* writes:—The Afridis of the Kohat Pass and other places used to purchase salt from the salt mines of Dhorang, at the rate of four maunds *per* one rupee, and an agreement was made between them and the Government. Some time ago, Mr. Tucker, the Deputy Commissioner of Kohat, proposed that the salt mine being in possession of the Government, salt ought to be supplied at the rate of two maunds *per* rupee and not four maunds. This proposal was sent to Government for sanction, and after it had received its sanction, Mr. Tucker sent for the chiefs of the Kohat Pass, and explained to them that in future, they will be supplied with salt from the mines at the rate of two maunds *per* rupee.

The principal villages in the Kohat Pass are Zarun Kheyl, Sher Akl, Boste Kheyl, Akhor, Shipalkai, Godia Kheyl, and Tor Safar. The chiefs of the tribe of Zarun Kheyl are: Gholam; Malik Attar; Malik Latu; Sifat; Shahab Din; and Khuda Yar. Of Sher Akl—Malik Jahangir and Painda. Of Akher—Malik Jabar Sarwar; Asal Din; Alif Khan. Of Godia Kheyl—Pir Mohammed; Ajmer: Aila Khan; Said Mohammed, and Nazir. The Government have intimated their willingness to purchase salt at the rate of two maunds per rupee; but all the other tribes, principally the tribe of Gular or Pars, have raised objections:

1. As Government desires them to purchase salt at double the value, their pay ought to be proportionally increased from Rs. 12,000 to Rs. 24,000 annually.

2. Should no increase be made in the pay, they will not have purchase any salt themselves, nor allow any one to carry salt from the Kohat Pass; but they will allow passengers to pass, without injuring them.

3. Should their terms not be agreed to, they will close the Kohat Pass, and without any regard to the Rs. 12,000, which all the Afridis who are connected with the Pass get annually from Government.

On the 25th of June, the Jirga was dismissed, and the Deputy Commissioner of Kohat informed the tribes of the Pass that their pay is stopped from that date, and a proclamation has been made that the Kohat Pass is shut, and no British subject is to pass through it, else should any loss occur, Government will take no notice of it. As soon as the Jirga returned, they made the following proposals:—That as long as they do not come to any definite terms with the Government, they must keep quiet, and in regard to their former allowance, and in the case of anyone opposing the proposal made by the Jirga, his house will be set fire to and they will be excluded for 12 years from the *Kandi*. On the 3rd July, Hawasal, nephew of Malik Faindal, of Sher Akl, killed one Adal Shah, nephew of Malik Jahangir, on account of some existing enmity between them. The Jirga has accordingly set fire to the house belonging to Hawasal, and the punishment of his banishment is under consideration. The inhabitants of Boste Kheyl, Sher Akl, and Zarun Khyle have commenced to carry off their families and cattle to Bolundia, near the limits of Orakzai. Bolundia seems to be a place of safety, where water can be had in abundance. The Jirga has also made the following proposals for passengers going through the Kohat Pass:—That a passenger is not to be injured in any way. Should any one rob him of any article worth even an anna, he will be fined Rs. 200. The tribes of the Kohat Pass have sent a letter to the Mulla of Safrai in Tirah, through Sifat Khan, who is a friend to the Mulla, saying that they require his assistance in this affair, and they intend to send their families in case of emergency to Tirah, and will entirely depend upon him for their support. In reply to their letter, the Mulla has given them every hope to take care of their families, and persuade the other Afridis to take part with, and to fight for, them.

AN ACADEMIC SQUABBLE.

AN incorrect account of a recent deplorable breach of discipline, which occurred in the Oriental College, Lahore, having appeared in some of the papers, it is as well that the true facts should be published. A student, who had long been in the Oriental College, had drawn a scholarship for two years after matriculation upon the usual condition that he should appear at the intermediate examination held in 1883. Three months before the date of the examination, the student took a month's leave and did not return when it expired, pleading sickness—a plea which he failed to substantiate. He was informed that he would have to refund his scholarship according to his written agreement unless he appeared at the examination. He, however, did not return until all the examinations were over and then told that he might rejoin without any scholarship and instead of refunding the large sum drawn previously, provided he appeared at the examination next year. He pressed the Superintendent to recommend him for a continuance of his former scholarship, and the Superintendent, while saying that he could not be sure it would be granted, promised to report the matter, if the student gave security for his due appearance at the next examination. The student said he could not do this and must insist upon a renewal of his scholarship. The Superintendent, a native gentleman well-known for his benevolent and peaceful disposition, requested the student to withdraw from the office room. The student then threw his shoe at the Superintendent, hitting him on the head, and ran away. The Superintendent sent word to the Registrar, who appeared shortly afterwards and took down the statements of those concerned. The Superintendent, having no other remedy, as the student was a minor, then filed a complaint before the Magistrate; and this was tried by Mr. Robinson, who punished the accused by sentencing him to two months' imprisonment for his cowardly, unprovoked, and disgraceful assault.

No other students joined in the assault, which occurred in the Superintendent's private office, the only witnesses being his clerks, peons, and punka-coolie. The affair related to the Oriental College and not to the Punjab University. The person assaulted was not an Assistant Professor, but a highly experienced and meritorious Native of the Institution. There was no shoebeating, unmerciful or otherwise, but the throwing of a single shoe only. Mr. Parker had nothing whatever to do with stopping the shoe-beating or the trial of the culprit. Mr. Robinson, who tried the case, did not impose a fine of Rs. 200.

It is true that the student was a *Sikh*, and the Superintendent a Bengali gentleman. The student had upon another occasion insulted the Superintendent or some impertinence, but was otherwise well conducted. The student had already ceased to belong to the College by having overstayed his leave, and had not been readmitted until the question was disposed of. The assault was probably premeditated, the student had been pressing for a scholarship for some days and expressed himself unsatisfied to Mr. Khajawan Thanan, for criminally trespassing into his client's house, causing mischief, and taking forcible possession of nine pairs of trousers and a revolver belonging to him. It appeared, the pleader said, that Inspector Davis, with a *posse* of policemen, broke open the main door of his client's house, rushed inside, broke open the padlock of another room, committed mischief by capsizing tables and destroying furniture, and finally took forcible possession of the articles above referred to. Complainant remonstrated with him, but he made use of abusive language towards him, saying "I will do just as I like. You can go to the Deputy Commissioner." His client had been informed that the defendant had been armed with a warrant for the arrest of some one in the house, which, however, he did not produce. His Worship said it appeared from the mode of his office, that warrants had been issued for the apprehension of two men who were alleged to have been in the house of complainant. The police, therefore, had full authority and right to break open any door, provided they had reasonable grounds to believe that the defendants were concealed in that building. He added that he had been given to understand by Inspector Davis, that these articles had been seized by him, on the representation that they belonged to the men for whose apprehension the warrants had been issued, but that was a matter which was premature, and would be inquired into in due course.—*Id.*

A SERIOUS ACCIDENT.—Mr. James Gowenlock, a member of the firm of Jessop and Company, met with a serious accident on Saturday morning. It appears that Mr. Gowenlock was riding a restive horse along the new road which runs along the south of the P. P. Pontoon at Mandvi Chak, when the animal bolted. Mr. Gowenlock was unable either to rein his horse in or to turn it, and it ran with great violence against a wire fence which skirts the road. Mr. Gowenlock was thrown over the fence, and the horse rolled over and fell on him. Some gentlemen about the spot rendered all the assistance they could, and Mr. Gowenlock, who was almost senseless, was removed to his residence, hard by, on a stretcher. It is stated that he had fractured his left arm and has been much bruised.—*Id.*

FATAL ACCIDENT IN ASSAM.—A report of a fatal accident reaches us from Upper Assam. Our readers are aware that a railway is being made from Dibrughur to tap the coal-fields on the banks of the Dehing at Makum. A wooden railway bridge is being thrown across the river, about 3 miles above the Makum outpost fort, and the spot is known now as Margarita, being so called by the Engineer, Robert Paganini, after the Queen of Italy. A large body of Europeans—foremen, drivers, miners, &c.—are located at and near here, and to facilitate crossing the river, a wire rope is stretched across, and a ferry boat plies backwards and forwards by a pulley running on this rope. On the morning of the 21st June, Mr. W. Powell, head of the workshops, was crossing on the raft, with about a dozen native workmen. The stream was running very strong, and from some cause or other the raft sank, and Mr. Powell and an Assamese carpenter were drowned. Mr. Powell came out from England a few months ago for the Assam railway and Trading Company, and is said by his services were highly valued by them. He was a native of Wrexham, and leaves a wife to mourn his loss. Immediately on the accident taking place, the Chief Engineer telegraphed to Dibrughur, Jaipur, and other places to secure the body before it reached the Brahmaputra, and no trouble or expense was spared by the Railway Company towards this object. On the 24th June, Mr. Powell's body was found about eight miles below Margarita, with the exception of a light jacket, it was fully clothed, boots and all. The body was identified by his European friends, and was buried in Margarita. Unfortunately notice was not wired to Dibrughur. On the 27th June, information was received at Dibrughur that Mr. Powell's body had been secured at the Sibsagar-road ferry, about 107 miles from Margarita, and another body was found to have been in the water some time, and was supposed to be that of the Assamese carpenter. The body was brought into Dibrughur late that night; it was naked, excepting a cloth round the waist; one hand was bandaged, and was lying across the chest; the other was entangled in the *kamarbund*; and an abrasion on one foot looked as if the deceased had worn "lace-up" boots. It was a fact that Mr. Powell had been seen at Margarita, a few days before his death, with a bandaged hand, in a sling across his chest, and evidence to this effect was given by an inspector of police. Two European doctors viewed the body, and both pronounced it to be that of a European. Some friends of Powell in the workshops at Dibrughur said they thought it must be his body; so it was buried in the Dibrughur cemetery, and the funeral was attended by all who were able to go to it. Dibrughur felt satisfied that it had done its duty to the unfortunate deceased, and was just settling down to its usual hum-drum existence, when news was received of the finding of the body and burial at Margarita. There was no room for any doubt about the lat

DR. J. COLLIS BROWNE'S CHLORODYNE
THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the wearing achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33, Great Russell-street, Bloomsbury, London, Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodine" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

CHRONOGRAPH WATCHES,
OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

THIS Company is formed for the purpose of supplying Electricity in all its applications to light, motive power, &c., as also all articles connected therewith, throughout the Presidency of Bombay (exclusive of Scinde); the Native States subject thereto; with Baroda; the Berars; and the territories of Hyderabad. Also over the present systems and lines and future extensions of the great Indian Peninsula, and Bombay, Baroda and Central India Railways.

It has secured the business, good-will, licenses, and contracts belonging to, or being negotiated for by, the Eastern Electric Light and Power Company, of London, within the limits abovementioned. As also the concessions for the exclusive right of using, licensing, and selling the plant and appliances pertaining to the various patents now belonging to the London Company.

These patents include the Brush Dynamo Machine and Arc Lamp and the Lane Fox Incandescent Lamp, the license for the use and sale of the Swan Incandescent Lamp, and supplies of storage batteries of the Sellon, Volckmar and Faure patents.

In Europe and America the admirable results both as regards efficiency and economy obtainable from these various systems are well known and are becoming daily more widely appreciated.

About 18,000 Brush Arc Lamps are ready in use in the United States alone, and they soon promise to be almost as extensively adopted in Great Britain for town and other large lightings; whilst the Lane Fox and Swan Incandescent Lamps are equally successful for internal purposes. In securing these patent rights and powers, however, *the Bombay Company will not be restricted to their sole use, but will have the privilege of adopting any other improved systems or methods of working which may hereafter be developed.*

For India the advantages of Electricity over all other means of lighting are specially manifest. Gas, Oil, &c., are so much dearer than in Europe and America that competition in the matter of cost is on a very different basis, whilst its freedom from heat and noxious exhalations and absence of danger from fire peculiarly adapt it for use in hot climates. In fact, it is the light of the future for this country and there can be no doubt that both for public and private purposes it will rapidly come into extensive operation.

Although the Eastern Electric Light & Power Co. have only been represented here for a comparatively short time and have necessarily been largely occupied with preliminary operations, they are now in a position to hand over a business producing upwards of Rs. 50,000 per annum, and are confident are they, from the numerous applications for the light which they have already in hand, of the ultimate success of the undertaking that they GUARANTEE A DIVIDEND ON THE WORKING OF THE COMPANY DURING THE FIRST THREE YEARS AT THE RATE OF EIGHT PER CENT. PER ANNUM ON THE PAID-UP CAPITAL. After the business has been developed, the Directors think that a probable dividend of 12 per cent. might be calculated upon.

The amount to be paid to the Eastern, by the Bombay Company for the business, good-will, patents, licenses, concessions, &c., is Rs. 1,60,000 in Cash and Rs. 1,60,000 in fully paid-up Shares. These amounts, however, will be vested in Trustees for security of the guaranteed dividend.

The plant, machinery, buildings, &c., to be taken over will be at actual cost price.

No promotion money has been paid and all preliminary expenses of every kind up to, and inclusive of, the registration of the Bombay Company will be borne by the Eastern Electric Light and Power Company of London.

The working expenses of the Company will be based, as far as possible, on minimum monthly salaries and commissions on net profits.

Prospectuses and forms of application can be obtained at the Company's Offices, or from the Solicitors, Messrs. Prescot and Winter, or the Agent, Mr. John Marshall, where all the agreements above-mentioned may be seen and any information obtained.
